Report on Review of Interim Condensed Consolidated Financial Information

To the Board of Directors of
Al-Deera Holding Company – KPSC
Kuwait

Introduction
We have reviewed the accompanying interim condensed consolidated statement of financial position of Al-Deera Holding Company - KPSC ("the Parent Company") and its subsidiaries ("the Group") as of 30 September 2026 and the related interim condensed consolidated statements of profit or loss, profit or loss and other comprehensive income for the three-month and nine-month periods then ended and, interim condensed consolidated changes in equity and cash flows for the nine-month period then ended. Management is responsible for the preparation and presentation of this interim condensed consolidated financial information in accordance with International Accounting Standard 34, "Interim Financial Reporting". Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

Scope of Review
We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion
Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial information has not been prepared, in all material respects, in accordance with International Accounting Standard 34 "Interim Financial Reporting".

Report on review of other legal and regulatory requirements
Based on our review, the interim condensed consolidated financial information is in agreement with the books of the Parent Company. We further report that, to the best of our knowledge and belief, no violations of the Companies Law No. 1 of 2016 and its Executive Regulations, or of the Parent Company's Memorandum of Incorporation and Articles of Association, as amended, have occurred during the nine-month period ended 30 September 2026 that might have had a material effect on the business or financial position of the Parent Company.

We further report that, during the course of our review, to the best of our knowledge and belief, we have not become aware of any material violations of the provisions of Law No. 7 of 2010, as amended, concerning the Capital Markets Authority and its related regulations during the nine-month period ended 30 September 2026 that might had a material effect on the business or financial position of the Parent Company.

3 Changes in accounting policies

The accounting polices used in the preparation of this interim condensed consolidated financial information are consistent with those used in the preparation of the annual consolidated financial statements for the year ended 31 December 2025, except for the adoption of the amendments to the IFRS Accounting Standards effective as of 1 January 2026 as described in Note 3.1. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

3.1 New and amended IFRS Accounting Standards adopted by the Group

The following amendments were effective for the current period:

IFRS 7 and IFRS 9 Classification and Measurement of Financial Instruments - Amendments

The amendments to IFRS 7 and IFRS 9 address three changes and are required to apply the amendments retrospective without restating prior periods to reflect the application of the amendments, but may do so if, and only if, it is possible to do so without the use of hindsight.

a) Derecognition of a financial liability settled through electronic transfer whereby entities are permitted to deem a financial liability (or part of it) that will be settled in cash using an electronic payment system to be discharged before the settlement date if specified criteria are met. An entity that elects to apply this derecognition option would be required to apply it to all settlements made through the same electronic payment system.

b) Classification of financial assets based on a) contractual terms that are consistent with basic lending arrangements, b) assets with non-recourse description has been enhanced to include a financial asset has non-recourse features if an entity's ultimate right to receive cash flows is contractually limited to the cash flows generated by specified assets, and c) contractually linked instruments have been clarified, and

c) Disclosures relating to a) financial assets at FVTOCI where entities are required to disclose fair value gain or loss separately for financial assets derecognised in the period and the fair value gain or loss that relates to investments held at the end of the period, and b) contractual terms that could change the timing or amount of contractual cash flows on the occurrence (or non-occurrence) of a contingent event that does not relate directly to changes in a basic lending risks and costs.

The adoption of the amendments did not have a significant impact on the Group's interim condensed consolidated financial information.

Annual Improvements to IFRS Accounting Standards – volume 11

The annual improvement project updates a number of standards primarily providing clarifications and removing inconsistencies.

The adoption of the amendments did not have a significant impact on the Group's interim condensed consolidated financial information.

Notes to the interim condensed consolidated financial information (continued)

4 Judgment and estimates

The preparation of interim condensed consolidated financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates. In preparing this interim condensed consolidated financial information, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the annual audited consolidated financial statements as at and for the year ended 31 December 2025.

5 Basic and diluted earnings per share attributable to the shareholders of the Parent Company

Basic and diluted earnings per share is calculated by dividing the profit for the period attributable to the shareholders of the Parent Company by weighted average number of shares outstanding during the period as follows:

	Three months ended		Nine months ended	
	30 Sept. 2026 (Unaudited)	30 Sept. 2025 (Unaudited)	**30 Sept. 2026 (Unaudited)**	30 Sept. 2025 (Unaudited) (Restated)*
Profit for the period attributable to the shareholders of the Parent Company (KD)	**291,932**	3,323,779	**7,457,083**	6,025,258
Weighted average number of shares outstanding during the period (shares)	**136,279,282**	136,279,282	**136,279,282**	136,279,282
Basic and diluted earnings per share attributable to the shareholders of the Parent Company (Fils)	**2.14 Fils**	24.39 Fils	**54.72 Fils**	44.21 Fils

The comparatively weighted average number of shares for calculating the basic and diluted earnings per share has been adjusted to reflect the bonus shares issue (Note 14).

The interim condensed consolidated financial information for the period ended 30 September 2025 has been restated following the finalisation of the purchase price allocation relating to an underlying associate of the Group's associates, in accordance with IFRS 3. Consequently, the previously reported basic and diluted earnings per share of 42.26 Fils for the nine-month period ended 30 September 2025 were recalculated after giving effect to the retrospective adjustments (Note 6a & 14).

Notes to the interim condensed consolidated financial information (continued)

KFAS is a private institution in accordance with the law. There is no provision in the Companies' Law or in the Parent Company's memorandum of incorporation and articles of association obligating the Parent Company to apply this deduction. Despite the above, the Ministry of Commerce and Industry (MOCI) has recently mandated that this deduction must be reflected in the financial statements until it is formally approved at the General Assembly meeting.

Therefore, the Parent Company's management decided to charge a provision as a precautionary procedure only even though it believes no amount is due from the Parent Company, particularly because the MOCI had issued similar instructions which were previously reversed.

17 Fair value measurement

17.1 Fair value hierarchy

Fair value represents the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Financial assets and financial liabilities measured at fair value in the statement of financial position are grouped into nine levels of a fair value hierarchy. The nine levels are defined based on the observability of significant inputs to the measurement, as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3: inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

The level within which the financial asset or liability is classified is determined based on the lowest level of significant input to the fair value measurement.

The financial assets measured at fair value on a recurring basis in the interim condensed consolidated statement of financial position are grouped into the fair value hierarchy as follows:

	Level 1 KD	Level 3 KD	Total KD

18 Legal cases

The management of the Parent Company filed legal cases against the Tax Department of the Ministry of Finance with regard to method of calculation of National Labour Support Tax and Zakat provision for previous years especially with respect to unrealized income items. Appeal judgements were issued. Those legal cases are still under litigation at the Court of Cassation. In case the Court of Cassation ruled a judgement in favour of the Parent Company, those amounts (Note 13) will be reversed from payables and other liabilities to the revenue within the consolidated statement of profit or loss of the Group.

During the previous years, according to the final judgement issued by the Court of Cassation, the Group has settled an amount of KD851,299 related to NLST's outstanding amount for the year ended 31 December 2005.

19 Geopolitical developments

During the period ended 30 September 2026, ongoing geopolitical developments in the Middle East have contributed to heightened uncertainty and volatility in global and regional financial markets. Some of the potential impacts include, but not limited to, supply chain disruptions, higher energy costs, margin pressures, and heightened refinancing and credit risk.

In preparing this interim condensed consolidated financial information in accordance with IAS 34 Interim Financial Reporting, management has assessed the potential impact of these developments on the Group's financial position, financial performance and cash flows. This assessment included consideration of the Group's exposure to credit and liquidity risks, the valuation of financial and non-financial assets, and its ability to continue as a going concern.

Based on the information available at the reporting date, management has not identified any significant deterioration in the credit quality of the Group's financial assets. The Group's liquidity position continues to be closely monitored through regular cash flow assessments. Management has also considered the potential impact of ongoing economic volatility and geopolitical developments on the fair values and carrying amounts of its financial and non-financial assets. Based on information available at the reporting date, management considers the reported amounts to appropriately reflect its assessment of fair values using observable market information and assumptions prevailing at that date. Nevertheless, financial markets remain volatile and the carrying values of certain assets may be sensitive to future market fluctuations.

Management has also assessed the impact of the current situation on the Group's ability to continue as a going concern and concluded that it remains appropriate to prepare the interim condensed consolidated financial information on a going concern basis.

Given the evolving nature of the situation, the management continues to monitor developments and assess their potential impact on the Group's financial position, financial performance and cash flows.
