Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410: "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim condensed consolidated financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and, consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial information is not prepared, in all material respects, in accordance with International Accounting Standard 34 "Interim Financial Reporting".

Emphasis of a matter

We would like to refer to Note (6) to the interim condensed consolidated financial information, regarding a lawsuit related to one of the projects. As of the report date, and given the available legal data, the potential financial impact cannot be determined. This is not a qualification in our conclusion.

Report on other legal and regulatory requirements

Furthermore, based on our review, the interim condensed consolidated financial information is in agreement with the books of account of the Parent Company. We further report that, based on our review, to the best of our knowledge and belief, no violations of the Companies Law No. 1 of 2016, its executive regulations, as amended, nor of the Parent Company's Memorandum of Incorporation and Articles of Association, as amended, have occurred during the nine month period ended 30 September 2026 that might have had a material effect on the business of the Parent Company or on its financial position.

6. Accounts receivable and other debit balances (Continued)

a) Due from clients for contracts includes an amount of KD 3,613,791 representing costs related to GPON project, regarding which there is a legal dispute over certain financial claims. During 2022, the Parent Company filed a lawsuit with the Ministry of Justice requesting the appointment of the Experts Department to review the contract for the design, supply, installation, operation and maintenance of fiber optic networks (second phase), and all related documents and correspondence, with an initial claim of KD 4,358,003.An initial expert report was issued by the Experts Department indicating that the Parent Company is not entitled to the claim. However, the Company submitted a formal objection to the report, and the request to review the lawsuit was accepted. Since the lawsuit relies on proving Huawei's breach and its cause in extending the duration of the works, thereby causing damage to the Group and estimating the compensatory damages, the final claim amount cannot be estimated at present until the expert report is issued, in light of which the final claim amount will be determined.

In the opinion of the Parent Company's legal counsel, the lawsuit is still pending and a hearing has been scheduled for 1 December 2026 before the Court of First Instance for the submission of the expert's report. Furthermore, from a legal perspective, it is considered probable that the claim will be won in principle, and that the Parent Company possesses legal and documentary evidence of the damage incurred, bearing in mind that this opinion is subject to and left to the discretion of the honorable court, especially given that the defendant is an international company with financial solvency enabling it to fulfill any obligation that may be adjudged against it.

Accordingly, the Group identified no material impact that would warrant any adjustments during the period ended 30 September 2026.
